DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:
 - The Specification cannot refer to the claims.
 - Throughout the specification and claims, the Applicants refer to the chemical formulas using the “□” symbol. For example,

wherein the symbol “□” stands for a vacancy in the crystal lattice. It is the Examiner's position that such symbol “□” should be replaced by a variable to avoid confusion. Specifically, in claim 1, the symbol was not printed or at least is not showing in the last version of the claims. In the same claim symbol “□” must be defined and claim 14 should be cancelled because it fails to further limit the parent claim once “□” is defined.

Appropriate correction is required.

Drawings

2. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). Specifically, the multilayer piezoelectric component comprising ceramic material layers with a plurality of internal electrodes must be shown.

Allowable Subject Matter

3. Claims 1-13 would be allowable if rewritten or amended to overcome the objection of the claims, set forth in this Office action.
4. The references of the Prior Art of Record fail to teach or suggest either alone or in obvious combination the limitations as set forth in claim 1, and specifically comprising the limitation of the specific lead zirconate titanate structure with the specific values of x, y and z such that the piezoelectric ceramic material corresponds to a morphotropic phase boundary.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
6. This application is in condition for allowance except for the following formal matters:

Objection to the claims, drawings and specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
